Nazeer officially released Magazine at the Principal Chamber. Al-Arabiya Magazine is one of the landmarks of the students in our college. This was the opportunity to express the discretion of students in Arabic, English and Malayalam languages.

The editorial page was under the supervision of department of Arabic. There are 14 articles in various subjects like History, Culture, Language, Story, Poetry, Biography, and Advice. We believe that this magazine has been able to attract more readers and provide useful information. This is the first magazine in the Arabic department of our college, and it brings more joy and enthusiasm for us.

It was the consequence of student's fellowship and hard work that caused the birth of such a magazine. We believe such kind of literary activities could be done in future under the activities of Arabic Association.
