Activity Report 2019-20

NTA NET is the test for determining the eligibility for the post of an assistant professor and Junior Research Fellowship award in Indian colleges and Universities. So having the difficulty as it being one of the toughest exam in India, the post graduate students have to study hard at least with enough coaching after their post-graduation. This scheme proposes to arrange specialized coaching programs for students in post-graduate to provide guidance for to crack NET while they are appearing their post-graduation. This programme also aims to improve the teaching ability and confidence of students by allocate each of them with their comfort subject to teach among them. This scheme for students will be purely voluntary in nature. We are adopting this programme for M.com students which is our only post graduate students. The Scheme aims at giving necessary orientation to needy students, to change their fear to face a national level exam and give them well systematic guidance. The programme started in college in the year 2017-18. For the extension of this programme we have created social media group to discuss students doubts while they are in home and conduct online tests to practice every day with a systematic and proper syllabus.

We started our 2019-20 academic year session on Tuesday, 10th October 2019 for 2 hours with selecting Mr. Muhammad Valeed. A (Assistant professor, Dept. of Commerce) as the coordinator. We decided to conduct each session on every Friday available.

Personal monitoring and Online mock test series

For the personal monitoring and home working and practice session, created a What's app group. Here the students themselves control the activities. Each day morning the test series starts online along with respective study materials, the answer keys publish evening 7.00 pm, so that they can study during the day time. They share their scores for the day and clear their confusions and doubts afterwards. Students are allocated with their own comfortable area of study so that they can make a high difficulty level questions on their own and share as a daily challenge here :
