

Nature Club

Activity Report 2019-2020

Flood Relief Activities

As Kerala witnessed flood during the month of June, Nature club took an active part in helping those who are in need. Our institution was a collection unit for organizing and sending the necessary items to the flood affected victims of certain area. Two students collected a sum of Rs.1000 from their neighboring area and they

were supported by the group members thus collecting and bringing the essential items like bottled water, innerwear, lotions, brooms, biscuits, napkins etc. The volunteer of the group handed a pack of bottled water to our principal Dr. P. Nazeer and inaugurated the activity. The sum of Rupees 1000 was also handed over to the principal thereby initiating to buy the essential items to be delivered to the camp.

Swatch Bharat Abhiyan mission

The club conducted a campaign on July 21, 2019 to learn the facilities and shortcomings of Anganawadis. The team visited the Anganawadi of Uliyangode and Chandakunnu respectively. The students interacted with the kids, teachers and ward member of that particular Anganawadi.

Visiting and Collection of Herbal plants from Vazuthana farm, Palode

The nature club coordinator and volunteer's visited Vazuthana farm ,Palode. The officer gave a simple talk on herbal plants and how it is beneficial to this advanced world .Some Herbal plants were collected and planted in vases.

Planting in vases

Donating clothes in old age home

Nature club in association with NSS donated dress materials for the needy from the member Abhiraj to the volunteer Ijas Khan.

Triangular plot

The triangular plot meant for nature club was cleaned and planted chillies of various kind on 1st November,2019.The herbal vases were arranged neatly by the club members.

Inauguration of Herbal garden

A triangular plot has been divided and decorated by bamboo fencing. The wall is painted and hanged moneyplants ,lucky bamboo and Pathumani to show the skill of the club members.

Soil day Observance

As part of soil day on December ,the students made an awareness campaign regarding the soil. In order to make the make students more attentive they organized a posture presentation .The posture exhibition was inaugurated by our principal Dr.P. Naseer and delivered a lecture regarding the importance of soil.

World wetland day Observance

As part of World wetland day (February 2,2020) Nature club organized a posture exhibition. The programme inaugurated by the principal Dr. P Naseer at 12:30 pm in the seminar hall .

There were fifty charts highlighting the features and advantages of wetland depicting through pictures drawn by students. Some students prepared powerpoint to visualize the consequence of loss of wetland and urgency to protect these ecosystem.

Wetland ecosystem is rich in species biodiversity .They made a serious attempt to differentiate constructed wetland and natural wetland. An appreciation prize is given to Fathima and Aparna the students of B.com for pictuarising and exploring different type of wetland analyzing using examples.
